Bachelor of Information Technology (Network and Cybersecurity Systems) (Honours)

Skills

- Java, SQL, HTML, JavaScript, Python, C++, TensorFlow, Laravel, Docker, Slack, Shell, and GitHub CI/CD Pipelines.
- Skilled in developing and deploying web applications and 3D environments.
- Expertise in front-end and back-end development
- Knowledgeable in network security principles, encryption, and secure authentication practices.

Work Experience

- The Good Guys May 2024 – Present
Sales Assistant
- Delivered personalised service, assisting customers with informed purchases and utilised various software systems. Collaborated effectively in a team, consistently exceeding sales target by 30% and boosting customer retention by 20%.
- UING July 2024 – December 2024
Full Stack Software Development Internship (Machine Learning Focus)
- Developed and integrated machine learning driven voice and hand gesture systems using TensorFlow.js and custom JavaScript through an agile methodology, achieving 95% accuracy and implemented these systems into web applications and 3D environments.
 - Managed the cybersecurity for a virtual game application with encryption and secure authentication. Led a team of 4 through all project stages, ensuring timely completion of milestones through effective coordination.
- Dominos, Plympton November 2021 – January 2025
Team Leader/Manager
- Provided excellent customer service, processed orders, and trained new employees. Constantly achieved perfect deliveries, 95% customer satisfaction, a perfect safety record and was Employee of the Month for 4 consecutive months.
- Administration Officer/Ward Clerk March 2023 – January 2024
Rehab Aged & Palliative Care
- Utilised SUNRISE software to accurately update patients records and clinical reports. Coordinated timely medical transportation, improving access by 25%, and boosted patient satisfaction by 15%.
- Personal tutor September 2020 – August 2022
- Organised academic data, prepared worksheets, and implemented a structured Math and English curriculum. Improved student scores by 20%, maintained a 90% student retention rate and worked with parents to develop growth plans.

Projects

Interactive Portfolio Website

Language used: JavaScript, React, Tailwind CSS, Vite
Features: Responsive React portfolio with routing, animations, SEO metadata, and a single click resume download, showcasing projects, skills, and contact links.

Sydney Map

Language used: JavaScript, React, Shadcn/UI
Features: Built and deployed a public-facing application visualising Sydney traffic using React. Demonstrated skills in a DevOps team presenting technical insights in accessible ways.

Additional information/Certificates

Awards:

- CISCO Networks and Cybersecurity
- CISCO Certified Network Associate (CCNA)
- CISCO Routing and Switching
- ANZ Australia Cybersecurity Management – Forage
- Commonwealth Bank Software Engineering – Forage
- Commonwealth Bank Introduction to Cybersecurity
